

The background is a dark, abstract composition. It features a dense network of thin, glowing green lines that crisscross and swirl across the frame. Interspersed among these green lines are numerous small, bright red dots. In the lower-left quadrant, there is a faint, semi-transparent blue grid pattern. The overall effect is one of dynamic, interconnected energy.

L'ém^érgence

<http://www.langtonant.com/>

A dark, blurry photograph of a firefly in a natural setting at night. The firefly is the central focus, appearing as a bright green and yellow light source. It is surrounded by dark, indistinct shapes that suggest foliage and branches. The overall scene is dimly lit, with the firefly's light providing the primary illumination. The background is mostly black, with some faint green and yellow highlights from the surrounding environment.
